

Model G 2000 MK

The **G 2000 MK** from Kärcher is an affordable entry-level gasoline pressure washer that offers serious performance in a compact, mobile package. Rated at 2000 PSI, this deceptively small unit generates up to 40 times as much pressure as the average garden hose! The G 2000 MK is also **40% lighter** than most gasoline pressure washers, easy to transport and perfect for those who have limited storage space and/or remote areas to clean. It can even draw water from a standing source when no water faucet is available. Pick up an extra for the cabin, vacation home or boat house!
